

FOOD GRADE PLASTIC VAT

TPR-075 TPR-110 TPR-200 TP-300

Plastic vat in food standard material (polyethylene AD). The 75, 110 and 200 L models are with high thickness and durability, while the 300 L model has a lower thickness. All are endorsed with the stainless steel trolley.

Features:

- High resistance and mechanical stability at low and high temperatures: - 40 ° C / 80 ° C (70°C max the 300 L model)
- The conical shape allows to insert one inside other.
- For food use.
- Maximum hygiene because the inner and outer surfaces are perfectly smooth.
- Resistant to oil, petrol, acids.

Composition (supplied even separately):

- TPR-xxx / 1: Vat
- TPR-xxx / 2: Cover
- TPR-xxx / 3: Stainless steel base with s.s. castors with brakes
